Choose your plan.

Bronze

Bronze plans have the highest deductible in exchange for a lower monthly premium. This is a good plan for those who don't go to the doctor often, but want the security to know they have coverage when they need it. The APTC subsidy can be applied to premiums for a Bronze plan.

Silver

Choosing a Silver plan may allow you to save in two ways. First, if you qualify for the APTC, you can use it to lower your monthly premiums. In addition, you may also qualify for the Cost Sharing Reduction (CSR) subsidy—only available in Silver plans—that lowers deductibles, copays, and coinsurance costs.

Gold

While a Gold plan means you'll have a higher monthly premium, you will pay less each time you go to the doctor and receive health care services. This plan is typically best-suited for high-utilizers. If you qualify for the APTC, you may apply the subsidy to your Gold plan premium.

The Advance Premium Tax Credit (APTC) referenced above is offered under the Federal Affordable Care Act. There are subsidies to significantly reduce your monthly premium upon qualification.
