

Denver Health Medical Plan

2021 Commercial Formulary & Pharmaceutical Management Procedures

What is the *Denver Health Medical Plan (DHMP) Commercial Formulary*?

The *DHMP Commercial Formulary* is a tool to help providers choose safe and effective drugs. If you are a member and have questions please refer to your Member Handbook or call Member Services at 303-602-2100 or 1-800-700-8140. TTY/TDD users should call 711.

The formulary is a closed formulary which means only the drugs listed are covered under the pharmacy benefit. All drugs require a prescription written by a provider to be covered by the pharmacy benefit.

How are formulary drugs selected?

The drugs are selected by a group doctors and pharmacists known as the Pharmacy and Therapeutics Committee. This committee meets regularly to review and select drugs for our members. During a review, the committee may look at the following for each drug:

- U.S. Food and Drug Administration (FDA) approval
- Safety and effectiveness
- Comparison studies
- Approved indications
- Adverse effects
- Contraindications, warnings and precautions
- Pharmacokinetics
- Patient compliance considerations
- Medical outcome and pharmacoeconomic studies

Does the formulary ever change?

Changes are made throughout the year. The latest version of the formulary may be viewed online.

- Provider Website
 - <http://www.denverhealthmedicalplan.org/provider-pharmacy-information>
- Member Website
 - <https://www.denverhealthmedicalplan.org/pharmacy>

Members and providers may also request a printed copy of the formulary by calling Member Services.

What if the pharmacy tells me the drug is not covered?

The pharmacy may receive a rejection message that says a Prior Authorization Request (PAR)/exception request is needed to have the drug covered. The

pharmacy may contact the provider to have the prescription changed to a formulary alternative, which is also known as a therapeutic substitution. The pharmacy may also request the provider send a completed PAR form to the DHMP Pharmacy Department. Clinical information showing why the requested drug is needed is required on the PAR.

What if the drug prescribed is not on the formulary?

If the drug is not listed there may be a generic or a formulary approved drug which can be prescribed. If the provider gives a member drug samples to start treatment, the member must find out if the medication is on the formulary or requires PAR approval first. If the samples are taken by the member before asking DHMP to pay for the drug first, it does not mean that DHMP will pay for that drug. Providers may submit a PAR by calling the DHMP Pharmacy Department at 303-602-2070 or 877-357-0963. Providers may also send completed PARs by fax to 303-602-2081 or email ManagedCarePAR@dhha.org. If the PAR for a non-formulary drug is approved, then the cost will be a Tier 4 (non-preferred brand-name) copay as shown in the Member Handbook.

How are PARs (also called an exception request) processed?

The DHMP Pharmacy Department reviews all PARs/exception requests on a case-by-case basis. Decisions are made using certain criteria and guidelines. Drugs listed on the formulary with a Prior Authorization (PA) or Step Therapy (ST) requirement have criteria available on the plan website. If the drug is non-formulary, all reasonable formulary drugs to treat the same condition must be tried first. Generic non-formulary drugs are preferred over brand non-formulary drugs. Other resources may also be used to make a decision, such as guidelines found on the National Guideline Clearinghouse website at <http://www.guideline.gov>. The member or provider may request a copy of the criteria or guidelines used for their submitted exception request. After a PAR is submitted, the member and provider will be notified of the decision. An expedited or quicker review for urgent situations may be requested. If you have questions about this process please call the DHMP Pharmacy Department at 303-602-2070 or 877-357-0963.

What happens if a request is denied?

If a request is denied, the member and provider will receive a letter that will include information about the member's rights and the appeals process. The Member Handbook gives more details about this process. Please refer to the Member Handbook, or call Member Services if you have any questions.

What if the member is new to the plan and the drug is not on the formulary?

If the member is new to the plan they may be eligible for a transition supply. This may be done for medications that are not on the formulary or if the prescription is for a quantity more than what the formulary allows to be filled. This allows the provider time to prescribe a formulary drug or submit a PAR.

What are generic drugs?

Generic drugs are FDA-approved for safety and effectiveness. The color and shape may be different from the brand-name drug, but they are made using the same strict FDA standards as brand-name drugs. If a brand-name drug is requested by the member or provider when a generic is available the member must pay the copay plus the difference in cost unless a PAR/exception request is approved.

What is generic substitution?

Generic substitution is when a generic version of a drug is dispensed in place of a brand-name drug. In most cases generic drugs are preferred on the formulary.

When are prescriptions eligible to be refilled?

Non-controlled prescriptions are eligible for refill once 75% has been used. Some examples of non-controlled prescriptions are drugs used for blood pressure, high cholesterol and diabetes. Controlled prescriptions are eligible once 85% has been used. Some examples of controlled prescriptions are opioids, stimulants such as Adderall or Ritalin, or benzodiazepines such as diazepam and lorazepam. This is calculated using the original prescription directions. If there is a change in the prescription directions, the pharmacy or provider should be contacted for an updated prescription.

Are prescriptions eligible through mail order?

Members may get prescriptions through Denver Health Pharmacy by Mail if their prescriptions are written by a Denver Health provider. This service allows a 90 day supply of certain prescriptions to be delivered to the member. Prescriptions must be written for a 90 day supply of drug.

- Denver Health Pharmacy by Mail
303-602-2326

Some plans also have the option to obtain mail order prescriptions through MedImpact Direct Mail Order. Prescriptions filled by MedImpact Direct Mail Order will have a higher copay than prescriptions filled by the Denver Health Pharmacy by Mail. However, MedImpact Direct Mail Order is the only mail order option if the prescriptions are written by providers outside of Denver Health. Refer to the Member Handbook to see if MedImpact Direct Mail Order is an option.

What if my drug is a specialty drug?

Some drugs are known as “Specialty” drugs. Most specialty drugs can only be filled as 30-day supplies. Some specialty drugs can only be filled at specialty pharmacies chosen by DHMP.

What drugs are available at a discounted copay?

Some formulary drugs are eligible for discounted copays which are shown in the Member Handbook. This program encourages members to regularly refill their prescriptions by decreasing their copay. Discount drugs are identified in the formulary on the “DISC” tier.

Are there drugs that are excluded by the pharmacy benefit?

Some drugs are not covered at all. These include drugs for the following:

- Cosmetic use (anti-wrinkle, hair removal, and hair growth products)
- Dietary supplements
- Blood or blood plasma (except anti-hemophilic factor VIII & IX are covered)
- Infertility
- Travel vaccinations recommended by the Centers for Disease Control and Prevention (CDC) only for travel outside of the United States (covered vaccines are listed in the formulary)
- Over-the-counter drugs (except those listed on the formulary)
- Pigmenting / De-pigmenting
- Therapeutic devices or appliances (except for formulary diabetic monitoring supplies)
- Investigational or experimental treatments

Who should be contacted with questions?

The member or provider may contact the DHMP Pharmacy Department with any questions about the formulary or pharmacy benefits by calling 303-602-2070 or 877-357-0963, or by email at ManagedCarePAR@dhha.org. Member Services may also be contacted at 303-602-2100 or 1-800-700-8140. TTY/TDD users should call 711.

How to use the formulary

- The formulary is grouped by drug class or disease state sections.
- Generic drugs are listed by generic name, and brand names are included as a reference. Brand drugs are listed only with brand names.
- For most drugs all dosage forms and strengths of the brand-name drug listed are covered by the pharmacy benefit.
- When a strength or dosage form is listed specifically, only that strength or dosage form is included on the formulary. Other strengths and dosage forms of the reference product are not included on the formulary.
- Modified-release or combination products included on the formulary are defined by the listed brand-name product. Modified-release and combination products are only covered if they are on their own line and are not included if only the immediate-release drug is listed.

5 Tier Formulary

Tier 1: Preferred generic drugs

Tier 2: Non-preferred generic drugs.

Tier 3: Preferred brand-name drugs

Tier 4: Non-preferred brand-name drugs and preferred specialty drugs to be filled at the preferred specialty pharmacies chosen by the plan.

Tier 5: Specialty drugs to be filled at the preferred specialty pharmacies chosen by the plan.

Copay: A dollar amount that a member is required to pay. The copay cost will never be higher than the dollar amount listed for that tier in the Member Handbook.

Deductible: A total dollar amount that must be paid by the member before the plan will cover a portion of the costs. The plan-specific deductible must be paid before the copay or coinsurance percentage applies, as listed for that tier in the Member Handbook. Please refer to the Member Handbook for the deductible amount.

Preventive Drugs (available for \$0 copay)

Preventive drugs are available for \$0 copay when filled with a prescription. These drugs are identified in the formulary on the “PREV” tier.
