HEALTH INSURANCE 101: TERMS IN SIMPLE LANGUAGE

ALLOWED AMOUNT
DHMP negotiates a discount with each provider in our network. You have the advantage of this discount (allowed amount) and will never pay more than this negotiated price.

BILLED AMOUNT
This is what the provider bills to the insurance plan for a service you received. These are the full charges and the discount DHMP negotiated has not been applied yet.

COINSURANCE (COINS)
This is the charge, stated as a percentage of eligible expenses, that you are required to pay for certain covered health services.

COPay
The predetermined amount, stated as a percentage or a fixed dollar, an enrollee must pay to receive a specific service or benefit. Copayments are due and payable at the time of receiving a service.

DEDUCTIBLE (DED)
The amount you will have to pay for allowable covered expenses under a health plan during a specified time period (e.g., a plan year or benefit year) before the carrier will cover expenses. The specific expenses that are subject to the deductible vary by policy.

EMBEDDED DEDUCTIBLE *
A deductible is the amount you have to pay for allowable covered expenses under a health plan during a specified time period (e.g., a plan year or benefit year) before the plan will begin paying for covered expenses. In an embedded deductible plan, cost sharing for a member will begin when that member reaches their individual deductible or when a combination of members reaches the family deductible. This means that a member will start to pay copays and/or coinsurance for the remainder of the plan year or until the individual out-of-pocket maximum is met. Once the individual reaches their out-of-pocket maximum, then the plan will pay 100% of covered services for that member for the remainder of the plan year. Note: an individual who meets their individual deductible will initiate cost sharing with the plan prior to other members on the plan.

FSA
A Flexible Spending Account (FSA) is a special account you put money into that you use to pay for certain out-of-pocket health care costs. You don’t pay taxes on this money if pre-tax payroll deductions are elected. This can lower your taxable income and allows you to pay for qualified medical expenses with tax-free dollars.

MONTHLY PREMIUM
Monthly charge to a subscriber for medical benefit coverage for the subscriber and their eligible, enrolled dependents.

OUT-OF-POCKET MAXIMUM
The maximum amount you will have to pay for allowable covered expenses under a health plan. The specific deductibles or cost sharing included in the out-of-pocket maximum may vary by policy.

* All three DHHA employer group plans offered through DHMP are embedded.
