Elevate Medicaid Choice and Elevate Child Health Plan Plus (CHP+) 2025 Formulary & Pharmaceutical Management Procedures

What is the *Elevate Medicaid Choice and Elevate CHP+ Formulary*?

The *Elevate Medicaid Choice and Elevate CHP+ Formulary* is a tool to help providers choose safe and effective drugs. If you are a member and have questions, please refer to your Member Handbook or call Health Plan Services at one of the numbers listed below.

- CHP+: 303-602-2100
- Medicaid: 303-602-2116
- Toll free for Medicaid and CHP+: 1-800-700-8140
- TTY users for Medicaid and CHP+: 711

The Elevate Medicaid Choice plan and the Elevate Child Health Plan Plus (CHP+) plan [offered by Denver Health Medical Plan (DHMP)] use this formulary which is made up of both prescription and over-the-counter (OTC) drugs. The formulary is a closed formulary which means only the drugs listed are covered under the pharmacy benefit. All drugs need a prescription written by a provider to be covered by the pharmacy benefit.

How are formulary drugs chosen?

The drugs are chosen by a group of Denver Health doctors and pharmacists known as the Pharmacy and Therapeutics Committee. This committee meets often to review and select drugs for our members. During a review, the committee may look at the following for each drug:

- U.S. Food and Drug Administration (FDA) approval
- Safety and effectiveness
- Comparison studies
- Approved indications
- Adverse effects
- Contraindications, warnings, and precautions
- Pharmacokinetics
- Patient compliance considerations
- Medical outcome and pharmacoeconomic studies

Does the formulary ever change?

Changes are made throughout the year. The latest version of the formulary may be viewed online.

- Provider Website
 - <http://www.denverhealthmedicalplan.org/provider-pharmacy-information>
- Member Website
 - <https://www.denverhealthmedicalplan.org/pharmacy>

Members and providers may also ask for a printed copy of the formulary by calling Health Plan Services.

What if the pharmacy tells me the drug is not covered?

The pharmacy may get a rejection message that says a Prior Authorization Request (PAR)/exception request is needed to have the drug covered. The pharmacy may talk to the provider to have the prescription changed to a formulary alternative, which is also known as a therapeutic substitution. The pharmacy may also request the provider send a filled-out PAR form to the DHMP Pharmacy Department. Clinical data showing why the requested drug is needed is required on the PAR.

What if the drug prescribed is not on the formulary?

If the drug is not listed there may be a generic or a formulary approved drug which can be prescribed. If the provider gives a member drug samples to start taking, the member must find out if the medication is on the formulary or needs PAR approval first. If the samples are taken by the member before asking DHMP to pay for the drug first, it does not mean that DHMP will pay for that drug. If guidelines exist within the Health Care Policy and Financing Preferred Drug List or Appendix P, then those guidelines will be used to make a decision to approve or deny the request. Providers may send a PAR by calling the DHMP Pharmacy Department at 303-602-2070 or 877-357-0963. Providers may also send filled-out PARs by fax to 303-602-2081 or by submitting an electronic PAR.

How are PARs (also called an exception request) processed?

The DHMP Pharmacy Department reviews all PARs/exception requests on a case-by-case basis. Decisions are made using certain criteria and guidelines. Drugs listed on the formulary with a Prior Authorization (PA) or Step Therapy (ST) requirement have criteria on hand on the plan website. If the drug is non-formulary, all reasonable formulary drugs to treat the same health problem must be tried first. Generic non-formulary drugs are preferred over brand non-formulary drugs. If Health First Colorado has prior authorization criteria and requirements, then that criteria will be used. Other support may also be used to decide, such as guidelines found on the National Guideline Clearinghouse website at <https://www.ahrq.gov/gam/index.html>. The member or provider may request a copy of the criteria or guidelines used for their exception request. As stated by Colorado regulations, providers are expected to answer the plan's request for

more clinical data within 72 hours. After a PAR is sent, the member and provider will be notified of the decision. An expedited or quicker review for urgent situations may be requested. If you have questions, please call the DHMP Pharmacy Department at 303-602-2070 or 877-357-0963.

What happens if a request is denied?

If a request is denied, the member and provider will get a letter that will explain the member's rights and the appeals process. The Member Handbook gives more details about this process. Please refer to the Member Handbook, or call Health Plan Services if you have any questions.

What if the member is new to the plan and the drug is not on the formulary?

If the member is new to the plan, they may be eligible for a transition supply. This may be done for medications that are not on the formulary or if the prescription is for an amount more than what the formulary allows to be filled. This allows the provider time to order a formulary drug or send a PAR.

What are generic drugs?

Generic drugs are FDA-approved for safety and effectiveness. The color and shape may be different from the brand-name drug, but they are made using the same strict FDA standards as brand-name drugs. If a brand-name drug is requested by the member when a generic is available, the member must pay the difference in cost. If a brand-name drug is requested by the provider when a generic is available, the brand-name drug will be covered at the usual copay.

What is generic substitution?

Generic substitution is when a generic version of a drug is dispensed in place of a brand-name drug. In most cases, generic drugs are preferred on the formulary.

When are prescriptions eligible to be refilled?

Non-controlled prescriptions are eligible for refill once 75% has been used. Some examples of non-controlled prescriptions are drugs used for blood pressure, high cholesterol, and diabetes. Controlled prescriptions are eligible once 85% has been used. Some examples of controlled prescriptions are opioids, stimulants such as Adderall (dextroamphetamine/amphetamine) or Ritalin (methylphenidate), or benzodiazepines such as Valium (diazepam) and Ativan (lorazepam). This is based on the original prescription directions. If there is a change in the prescription directions, the pharmacy or provider should be called for an updated prescription.

90-day Supplies

A 90-day supply can be filled for most drugs at a \$0 copay.

A provider must write a prescription for a 90-day supply. The pharmacy cannot fill a 90-day supply without the provider's permission. For more information, call the DHMP Pharmacy Department at 303-602-2070 or 877-357-0963.

Are prescriptions eligible through mail order?

Members may get prescriptions through Denver Health Pharmacy by Mail if their prescriptions are written by a Denver Health provider. This service allows a 90-day supply of certain prescriptions to be delivered to the member. Prescriptions must be written for a 90-day supply of drug. A credit card is not needed for this service.

What if my drug is a specialty drug?

Some drugs are known as "Specialty" drugs. Most specialty drugs can only be filled as 30-day supplies. Some specialty drugs can only be filled at DHHA or designated specialty pharmacies. These are considered limited access (LA).

Are there drugs that are excluded by the pharmacy benefit?

Some drugs are not covered at all. These include drugs for the following:

- Cosmetic use (anti-wrinkle, hair removal, and hair growth products)
- Non-formulary dietary supplements (vitamins, herbals, etc.)
- Infertility (to help women get pregnant)
- Pigmenting / De-pigmenting (to change skin color)
- Sexual performance/dysfunction (Viagra, Cialis, Levitra etc.)
- Weight loss
- Investigational or experimental treatments
- Prescription drugs not approved by the Food and Drug Administration (FDA) for any disease
- Travel vaccines recommended by the Centers for Disease Control and Prevention (CDC) only for travel outside of the United States (covered vaccines are listed in the formulary)
- Drugs manufactured by pharmaceutical companies not participating in the Colorado Medicaid Drug Rebate Program

Who should be contacted with questions?

The member or provider may call the DHMP Pharmacy Department with any questions about the formulary or pharmacy benefits through the [Member Portal](#) or by calling 303-602-2070 or 877-357-0963. Health Plan Services may also be contacted at the following numbers:

- CHP+: 303-602-2100
- Medicaid: 303-602-2116
- Toll free for Medicaid and CHP+: 1-800-700-8140
- TTY/TDD users for Medicaid and CHP+: 711

How to use the formulary

- The formulary is grouped by drug class or disease state sections.
- Generic drugs are listed by generic name, and brand names are included as a reference. Brand drugs are listed only with brand names.
- For most drugs all dosage forms and strengths of the brand-name drug listed are covered by the pharmacy benefit.
- When a strength or dosage form is listed, only that strength or dosage form is included on the formulary. Other strengths and dosage forms of the reference product are not included on the formulary.
- Modified-release or combination products included on the formulary are defined by the listed brand-name product. Modified-release and combination products are only covered if they are on their own line and are not included if only the immediate release drug is listed.
