

Denver Health Medical Plan

Q4 2025 Commercial Formulary & Pharmaceutical Management Procedures

What is the *Denver Health Medical Plan (DHMP) Commercial Formulary*?

The *DHMP Commercial Formulary* refers to the formulary for the self-funded Denver Health Hospital Authority (DHHA) Employee plans and is a tool to help providers choose safe and effective drugs. If you are a member and have questions, please refer to your Member Handbook or call Health Plan Services at 303-602-2100 or 1-800-700-8140. TTY users should call 711.

The formulary is a closed formulary which means only the drugs listed are covered under the pharmacy benefit. All drugs require a prescription written by a provider to be covered by the pharmacy benefit.

How are formulary drugs selected?

The drugs are selected by a group of doctors and pharmacists known as the Pharmacy and Therapeutics Committee. This committee meets regularly to review and select drugs for our members. During a review, the committee may look at the following for each drug:

- U.S. Food and Drug Administration (FDA) approval
- Safety and effectiveness
- Comparison studies
- Approved indications
- Adverse effects
- Contraindications, warnings, and precautions
- Pharmacokinetics
- Patient compliance considerations
- Medical outcome and pharmacoeconomic studies

Does the formulary ever change?

Changes are made throughout the year. The latest version of the formulary may be viewed online.

- Provider Website
 - <http://www.denverhealthmedicalplan.org/provider-pharmacy-information>
- Member Website
 - <https://www.denverhealthmedicalplan.org/pharmacy>

Members and providers may also request a printed copy of the formulary by calling Member Services.

What if the pharmacy tells me the drug is not covered?

The pharmacy may receive a rejection message that says a Prior Authorization Request (PAR)/exception request is needed to have the drug covered. The

pharmacy may contact the provider to have the prescription changed to a formulary alternative, which is also known as a therapeutic substitution. The pharmacy may also request the provider send a completed PAR form to the DHMP Pharmacy Department. The PAR will require clinical information to justify the use of the requested drug. Documentation, such as chart notes, should be submitted with PARs.

What if the drug prescribed is not on the formulary?

If the drug is not listed there may be a generic or a formulary approved drug which can be prescribed. If the provider gives a member drug samples to start treatment, the member, or the provider, must find out if the medication is on the formulary or requires PAR approval first. If the samples are taken by the member before asking DHMP to pay for the drug first, it does not mean that DHMP will pay for that drug. Providers may submit a PAR by calling the DHMP Pharmacy Department at 303-602-2070 or 877-357-0963. Providers may also send completed PARs by fax to 303-602-2081. If the PAR for a non-formulary drug is approved, then the cost will be a Tier 4 (non-preferred brand-name) copay/coinsurance as shown in the Member Handbook.

How are PARs (also called an exception request) processed?

The DHMP Pharmacy Department reviews all PARs/exception requests on a case-by-case basis. Decisions are made using certain criteria and guidelines. Drugs listed on the formulary with a Prior Authorization (PA) or Step Therapy (ST) requirement have criteria available on the plan website. If the drug is non-formulary, all reasonable formulary drugs to treat the same condition must be tried first. Any applicable criteria for drugs in the same class will be utilized. Generic non-formulary drugs are preferred over brand non-formulary drugs. Other resources may also be used to make a decision, such as guidelines found on the National Guideline Clearinghouse website at <https://www.ahrq.gov/gam/index.html>. The member or provider may request a copy of the criteria or guidelines used for their submitted exception request. After a PAR is submitted, the member and provider will be notified of the decision. An expedited review for urgent situations may be requested. If you have questions about this process, please call the DHMP Pharmacy Department at 303-602-2070 or 877-357-0963.

What happens if a request is denied?

If a request is denied, the member and provider will receive a letter that will include information about the member's rights and the appeals process. The Member Handbook gives more details about this process. Please refer to the Member Handbook or call Health Plan Services if you have any questions.

What if the member is new to the plan and the drug is not on the formulary?

If the member is new to the plan, they may be eligible for a transition supply. This may be done for medications that are not on the formulary or if the prescription is for a quantity more than what the formulary allows to be filled. This allows the provider time to prescribe a formulary drug or submit a PAR.

What are generic drugs?

Generic drugs are FDA-approved for safety and effectiveness. The color and shape may be different from the brand-name drug, but they are made using the same strict FDA standards as brand-name drugs. If a brand-name drug is requested by the member or provider when a generic is available, the member must pay the copay plus the difference in cost.

- **Important Note for Contraceptives:**

The plan will cover, at no cost to the member, any necessary contraceptive product and will defer to the member's provider's determination. This coverage includes brand names of generic products when a provider determines them to be medically necessary.

What is generic substitution?

Generic substitution is when a generic version of a drug is dispensed in place of a brand-name drug. In most cases generic drugs are preferred on the formulary. Some brand drugs may be more cost-effective at the Denver Health preferred pharmacies

When are prescriptions eligible to be refilled?

Non-controlled prescriptions are eligible for refill once 75% has been used. Some examples of non-controlled prescriptions are drugs used for blood pressure, high cholesterol, and diabetes. Controlled prescriptions are eligible once 85% has been used. Some examples of controlled prescriptions are opioids, stimulants such as Adderall (dextroamphetamine/amphetamine) or Ritalin (methylphenidate), or benzodiazepines such as Valium (diazepam) and Ativan (lorazepam). This is calculated using the original prescription directions. If there is a change in the prescription directions, the pharmacy or provider should be contacted for an updated prescription.

Are prescriptions eligible through mail order?

Members may get prescriptions through Denver Health Pharmacy by Mail if their prescriptions are written by a Denver Health provider. This service allows a 100-day supply of certain prescriptions to be delivered to the member. Prescriptions must be written for a 100-day supply of drug.

- Denver Health Pharmacy by Mail
303-436-4488

Some plans also have the option to obtain mail order prescriptions through MedImpact Direct Mail serviced by Birdi. Prescriptions filled by MedImpact Direct Mail will have a higher copay than prescriptions filled by the Denver Health Pharmacy by Mail. However, MedImpact Direct Mail is the only mail order option if the prescriptions are written by providers outside of Denver Health. Refer to the Member Handbook to see if MedImpact Direct Mail serviced by Birdi is an option.

What if my drug is a specialty drug?

Some drugs are known as “Specialty” drugs. Most specialty drugs can only be filled as 30-day supplies. Some specialty drugs can only be filled at DHHA or designated specialty pharmacies.

Are there drugs that are excluded by the pharmacy benefit?

Some drugs are not covered at all, even with a PAR. These include drugs for the following:

- Cosmetic use (anti-wrinkle, hair removal, and hair growth products)
- GLP-1s for Weight Loss
- Dietary supplements
- Blood or blood plasma (except anti-hemophilic factors VIII & IX are covered)
- Travel vaccinations recommended by the Centers for Disease Control and Prevention (CDC) only for travel outside of the United States (covered vaccines are listed in the formulary)
- Over-the-counter drugs (except those listed on the formulary)
- Pigmenting / De-pigmenting
- Therapeutic devices or appliances (except for formulary diabetic monitoring supplies)
- Prescription vitamins (except for those listed in the formulary)
- Investigational or experimental treatments

Who should be contacted with questions?

The member or provider may contact the DHMP Pharmacy Department with any questions about the formulary or pharmacy benefits through the [Member Portal](#) or by calling 303-602-2070 or 877-357-0963. Health Plan Services may also be contacted at 303-602-2100 or 1-800-700-8140. TTY users should call 711.

How to use the formulary

- The formulary is grouped by drug class or disease state sections.
- Generic drugs are listed by generic name, and brand names are in parentheses as a reference. Brand drugs are listed only with brand names in all uppercase letter.
- For most drugs all dosage forms and strengths of the brand-name drug listed are covered by the pharmacy benefit.
- When a strength or dosage form is listed specifically, only that strength or dosage form is included on the formulary. Other strengths and dosage forms of the reference product are not included on the formulary.
- Modified-release or combination products included on the formulary are defined by the listed brand-name product. Modified-release and combination

products are only covered if they are on their own line and are not included if only the immediate-release drug is listed.

4 Tier Formulary

Preventative: ACA Preventative Medications and Vaccinations

Tier 1: Preferred generic drugs

Tier 2: Preferred brand-name drugs

Tier 3: Preferred specialty drugs

Tier 4: Non-preferred brand-name drugs, specialty drugs, and generics*

*Denver Health HMO plan requires use of Denver Health pharmacy on this tier.

Copay: A dollar amount that a member is required to pay. The copay cost will never be higher than the dollar amount listed for that tier in the Member Handbook.

Coinsurance: A percentage of costs of a covered drug that a member is required to pay. The coinsurance cost applies to filling at national network pharmacies.

Some drugs may cost less if you fill at a Denver Health Pharmacy. Please talk to your pharmacy.

Preventive Drugs (available for \$0 copay)

Preventive drugs are available for \$0 copay when filled with a prescription. These drugs are identified in the formulary on the “PREV” tier.
